Step-by-step tutorial

1

Knead two strips of the FIMO soft block blueberry shake nice and soft and roll out the mixture into an even strand. You can also use any other FIMO soft colour.

2

Take a small piece of the FIMO soft pistachio nut block and knead the mixture again until it is nice and soft. Tear off small pieces and place them on the previously prepared blueberry shake strand. Roll the strand back and forth a few times with light pressure. This way, the small pieces of colour connect well with the FIMO strand.

3

Cut the ends of the strand with the blade and cut the strand into two equal lengths, approx. 5 – 6 cm per piece is ideal.

4

Now shape the strands for your earrings into a semicircle, the hoop.

Now place the earrings on baking paper and let them harden in the oven at 110°C / 230°F top and bottom heat for 30 minutes.

5

Let everything cool down well and glue the studs with instant adhesive on the earrings.

Done! Now your stylish Terrazzo FIMO earrings are ready! Feel free to try these earrings in different colours and sizes. Express your creativity and let it run wild!
